RING SIZE GUIDE

**** Before measuring your ring size, print this guide on US Letter size paper. If your printer has the options, uncheck "Scale To Fit" and be sure page scaling is set to 100%. ****

You can check the accuracy of your print by measuring the 3.5" line below with a ruler.

OPTION ONE: Place a ring that fits the finger you are shopping for on each circle until you find one that matches. The black circle should trace the inside of your ring. If your ideal fit falls between two sizes, choose the larger size. 1/4 sizes are also available. Measure a few times as the size can fluctuate depending on temperature. Ring size can also vary slightly depending on the style of the ring.

OPTION TWO: Ring Size-Measuring Tool: Print out the Ring Size Guide and cut out the sizing tool below. Slide the end tab "B" through slot "A" and wrap the sizer around the base of the finger. Make sure to allow size for your knuckle. The number aligned with slot "A" is your ring size. Select a size that goes on and off your finger easily, but not too loose or tight. 1/4 sizes are also available. Measure a few times as the size can fluctuate depending on temperature. Ring size can also vary slightly depending on the style of the ring.
